### Grants Res

### ource Center

Each year billions of dollars are distributed in federal grant and loan money to institutions and organizations throughout the country. The 12th District's universities, colleges, non-profit organizations, small businesses, and local governments are well-qualified to compete for these funds. This page is designed to provide information and resources to Georgia institutions and organizations seeking federal funds.

### Step 1: Register

The first step in the grant application process is to register at <http://www.grants.gov/>. The registration process is simple and will allow you to take the next steps to receive funding.

### Step 2: Research Opportunities

After you are registered, the next step is to gather information about grants you may qualify for. Federal funding, as well as private or corporate foundation funds are available. If you are seeking a grant for a local project, local community foundations may also have money available. There are many helpful links provided in the **Resources for Finding Grants** section below.

### **Step 3: Get More Information**

Once you have identified some possible sources of funding, I encourage you to contact the programs and foundations for more information. Be sure to note things like application guidelines and deadlines.

### **Step 4: Apply**

Once you are ready to apply, I invite you to take a moment to review the **How to Write Grant Proposals** section below to prepare yourself for the writing process. A well-written proposal is an important part of gaining funding for your project.
